Are lots of things you'll need for your summer vacation, a Serge Coat, Duck Trousers, Negligee Shirts, Russet Shoes, a Straw Hat, or Golf Cap, any and all of which we are prepared to supply better and more satisfactorily than any other store in town. Don't fail to take along a light OVERCOAT or a Mackintosh, if you prefer, plenty of them here, the proper sort, too, proper qualities, proper styles, and, as usual, at proper prices.

## Robinson, Chery & Co.

12th and F Sts. Statishings,

We'll Help You Out of the Woods.

Don't let any pecuniary consideration deter you from gratifying any want the home may have. You've got credit, so you don't need money. You've got our

to draw on, and that's equal to any bank acin and pick out what FURNITURE, CAR-PETS - MATTINGS - DRAPERIES - RE-FRIGERATORS - BABY CARRIAGES you'd buy if you had the money-and then promise to pay us in weekly or monthly instalments. That is all the guarantee we want. You can be as long about it as you want to. We don't ask any man to promise more than he can do.

Health Officer Inspecting Garbage Crematory Plants.

RESULTS UNSATISFACTORY

Western Methods to be Next Investigated-Smallpox Hospital Contract, Public Funds Allotted and Construction of Sewers Ordered-Mor-

tuary List Embraces 17 Infants.

The results of Health Officer Woodward's our of inspection of the crematory plants of other cities, with the view of determining the future system of garbage disposal of Washington, do not materially change the situation. But two of the incincration processes were at all satisfactory, and it is not certain that either of these will be acceptable. At any rate further time will

e taken for investigation. The two systems that seemed to be nearest the desired standard were the Smith and Brown crematories, respectively, the first being operated in Philadelphia, the other n Wilmington, Del. By the Smith method the general waste is disposed of in the same way the garbage is, and by the same process. The Brown plant consumes the garbage only, the dead animals being otherwise disposed of.

By the Brown system garbage is dumped into one large furnace, and is consumed by the use of petroleum, hot air and steam. It disposes of 60,000 tons of refuse daily, WHAT BROWN SYSTEM WOULD COST It is believed that to establish such a plant here would involve an expenditure of nearly, if not quite, \$50,000. Wil-mington health officers say the Brown

crematory is the best for this city out of all that had been inspected. Dr. Woodward, accompanied by Mr. S. P. Bayly, representing Contractor Warfield, will next visit Pittsbirg and St. Louis, to examine the Merz reduction plant and the Roder crematory, the former being used in St. Louis. They will also inspect the Simone method at Cincinnati,

and if necessary will then go to Richmond to investigate the Eagle system.

There is to be no relaxation in the effort to gri the best system extant, and the question will not be definitely settled for

Séveral weeks.
Meanwhile Mr. Warfield's temporary Meanwhile Mr. Warned's temporary contract for the four months ending Oc-tober 31, is in force. All the specifications of the five-year contract, relating to collec-tion and disposal and daily stryice, are ap-plied, and it will be the effort to have the crematory or other improved process in peration by November 1.

operation by November 1.

Dr. Woodward's report of his recent visit
o Philadelphia and Wilmington will be
ubmitted to the Commissioners to day.

SMALLPOX HOSPITAL CONTRACT. The centract for the construction of the malipox hospital has not yet been awarded, although most of the difficulties as to the appropriation has been overcome.

The building inspector is of the opinion but a first-class disinfecting plant can be introduced for not to exceed \$1,600. This added to the cost of construction under the owest bid received, will not consume the appropriation, a balance of \$1,059 re-

To construct a stable for housing the norses will probably cost \$1,000, and this would leave nothing for furnishing the hospital, but it is believed that Congress will appropriate sufficient money to de-fray thin expense, since, if all the buildings and the disintecting plant are provided, the deficit will be comparatively quite an in-

significant item.

The Cedar Cliff Cement Company objected to the Commissioners' deduction of \$52 from its contract price for cement furnished from its contract price for cement furnished the District. Attorner Thomas submits an opinion to the effect that the deduction was proper. The delay in delivery of a consignment of cement necessitated the purchase of a large quantity in the open market, which effected a saving to the District of the amount involved, and the Commissioners deducted it from the next payment made on the contract. ALLOTMENTS AND SEWERS.

allotments from appropriatio That allotments from appropriation for pumping expenses and pump distribution, 1896, are approved in the following sums: For coal, wood, repairs, etc., for operating the U street pumping station, \$9,305; for purchase of pipe, valves, lead, fire and street hydrauts, and other material for laying and repairing mains, and erect-ing hydrants, \$40,079.25; for laber in connection with laying, lowering and re-pairing mains and erecting and repairing bydrauts, \$39,904.75; total, \$90,000. The compensation of Harold Davis, chaluman in the engineer department, is fixed at \$2.25 per day, taking effect

Rewers have been ordered to be laid in Virginia avenue, between Seventh and Eighth streets southeast; in Seventh street, between **K** and L streets southstreet, between K and L streets south-east; in D street, between Eleventh and Twelfth streets southeast; in Bright-wood avenue, between Sheridan and Whit-ney avenues; in alleys of square 776; in alleys of square 408; in Kenyon street, between Thirteenth and Fourteenth streets; in I street, between Second and Third streets southeast and in Indecker street

between Esin and Sherman avenues.

Property-owners in L street northwest, between Connecticut avenue and Seventeenth street, object to the laying of a sewer in that thoroughfare. They were
